

CONVENIENCE

Designed with the end user in mind, for simplicity and easy operation, the Hydraulic Vertical Lift (HVL) provides an effortless user experience. Offering fast, smooth, easy lifting at the push of a button, the HVL will have you on the water in no time.

VERSATILITY

The speed and ease of hydraulics combine with adaptability to bring you the best of both worlds. The vertical design of this hydraulic lift accommodates shallow and fluctuating water depths and maximizes space limitations, making the HVL suitable for nearly any waterfront application.

RELIABILITY

With over 75 years of experience, RGC brings a depth of knowledge and a standard for excellence you can trust. We build a reliable product, so you can focus on what matters most: enjoying your time on the water.

BUILT TO LAST

HYDRAULIC VERTICAL LIFT FEATURES

1 HYDRAULIC LIFT MECHANISM

Housed safely in marine grade aluminum above the water allowing convenient access for maintenance and inspection. The hydraulic system pulls the cables, eliminating the wear and maintenance of winding cables.

2 CONTROL BOX

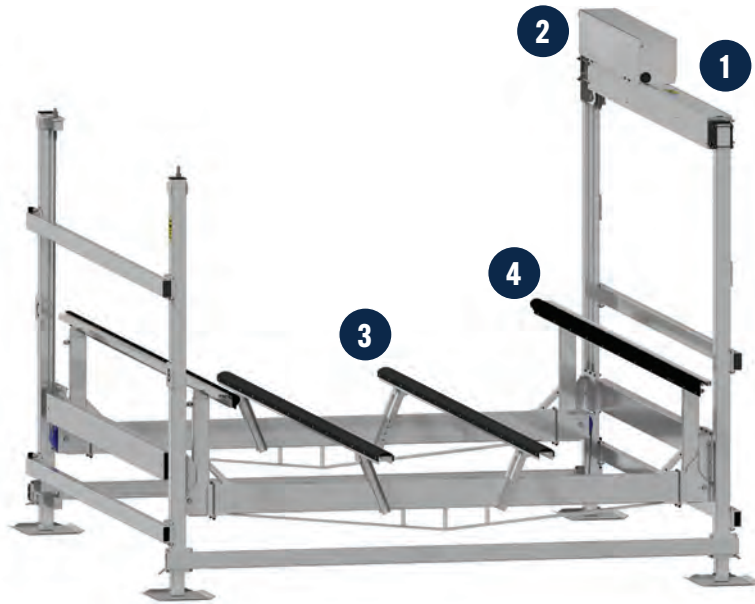

The Hydraulic pump is designed for maximum efficiency and operates with 12V or 24V DC power. Housed in a lockable water-resistant box.

3 PIVOTING BUNKS

Cradle and stabilize your boat and are easily adjustable with multiple height options. Aluminum and vinyl construction is durable and low maintenance.

4 FULL LENGTH GUIDE-ONS

Provides the ultimate protection for easy entry and exit.

SOLAR POWER

Choose solar for a clean, free, low-maintenance way to power your lift. This safer option eliminates the need to access shore power and provides a no-hassle way to get power to your lift.

FEATURES

VERSATILE With a lifting height up to 81" and a platform height as low as 10", this lift is ideal for a variety of water depths including deep water, shallow water & fluctuating water levels.

SMALL FOOTPRINT perfect for space limited applications.

LOW MAINTENANCE No winding cables to inspect or replace and fewer moving parts make this lift a breeze to own. Easy to install & adjust—no special tools required.

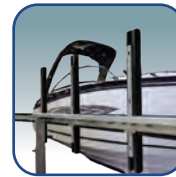

WIRELESS REMOTE TRANSMITTER
Convenient control of your lift from a distance with 2 included remote transmitters.

OPTIONS/ACCESSORIES

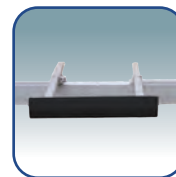

PONTOON AND TRITOON BUNK KITS

Designed to precisely cradle Pontoons and Tritoons with center toon adjustability for perfectly fitted bunks and reliable lifting of these large, heavy boats.

WAKEBOARD GUIDE-ONS

Vertical and full length guides combine for ultimate protection.

MOTOR STOP

Keep your boat properly positioned, safe and balanced for easy entry and exit.

EXTENSION LEGS

Fine-tune the height of your lift to various water depths with legs ranging from 29.5" up to 10'. Add shallow water foot-plates for maximum stability.

CANOPY

Add a canopy for complete protection.

Weight Capacity	Maximum Beam	Overall Width (inc. feet)	Overall Length (inc. feet)	Maximum Lifting Height	Minimum Platform Height
5,000 lbs.	124 in.	144 in.	138 in.	69/81 in.	9 in.
7,000 lbs.	108 in.	124 in.	138 in.	81 in.	11 in.
8,000 lbs.	124/132 in.	144/152 in.	138 in.	81 in.	10 in.
10,000 lbs.	132 in.	132 in.	138 in.	81 in.	10 in.
