### **SIMPLIFIED ELEGANCE: FINALLY, A DOCK SOLUTION THAT IS EASY, RELIABLE, AND BEAUTIFUL**

Introducing RGC's all new Marine Docks, featuring our exclusive EasyTrack™ system. Rapidly connect sections and attach accessories without the fuss of hard bolting, making installation and adjustments easier than ever. Combine this with exceptional stability and a variety of sizes, decking options and accessories to choose from, for a dock system that ticks all the boxes. RGC Marine Docks provide the effortless solution to transform your waterfront dreams into reality.

***BUILT TO LAST***

## EASYTRACK™ SYSTEM

This industry leading system simplifies how sections connect and accessories attach. Now you can effortlessly connect sections and add, remove, and rearrange accessories with ease.

### EASYTRACK™ SECTION CONNECTION

Our exclusive connector bracket is designed to give dock sections more mobility when relocating the dock, while ensuring a secure connection between sections.

### EASYTRACK™ ACCESSORY ATTACHMENT

Easily attach your dock accessories anywhere along the track using the EasyTrack™ accessory bracket.

### 3 MARINE GRADE ALUMINUM FRAMES

Built to withstand harsh marine environments. Our dock frames are designed to handle heavy traffic, yet lightweight and low maintenance.

### 4 DROP-IN DECKING

Decking drops in from the top of the frame for ease of replacement.

### 5 SCREW ADJUSTABLE LEGS

These easy-to-adjust legs mean you can level your dock without getting into the water. Interchangeable with wheels or footplates to provide versatility to your changing needs.

### 6 FOOT PLATE

Wide foot plates provide enhanced stability on uneven lake beds.

### WHEEL KITS

Our wheel kits feature wide poly wheels, which will never deflate, making transporting your dock over soft or rocky terrain a breeze.

### DOUBLE LEG BRACING

Adds stability and reduces swaying.

### CUSTOMIZE

Choose from a large array of section sizes available for the possibility of endless configurations.

### LARGE WIDTHS

Available in widths up to 8 feet. You can achieve results with fewer dock sections for a seamless dock.

### SECTIONAL, WHEEL-IN, FLOATING

Configure your dock to be a stationary dock, wheel-in dock, or floating dock.

### STACKABLE

Designed for easy transport and storage during the off-season.

### FAST, SIMPLE INSTALLATION AND ADJUSTMENT

The EasyTrack™ system makes installing, rearranging, and removing your dock a breeze. Dock sections go together in a snap and accessories attach with ease.

### NO-HASSLE LEVELING

Level your dock effortlessly with a cordless drill without getting into the water.

### EASY PORTABILITY

Dock sections connect in 2 positions, moving and stationary. The moving position provides mobility between sections, while the stationary setting locks sections for stability.

# BUILT TO LAST

## T9 TRUSS DOCK SYSTEM BRING ON THE WAVES!

The T9 Dock features a truss style frame to provide extreme strength and maximum stability in a lightweight design for easy removal at the end of the season.

**EXCELLENT DURABILITY AND STABILITY** The truss design lets the waves roll through while maintaining a stable walking surface. Combine this excellent durability with its lightweight design for a dock you can rely on to last season after season.

### **CONFIGURE IT AS A SECTIONAL, ROLL-IN, OR FLOATING DOCK**

Pair the T9 with optional foot plates, wheel kit, or dock floats to configure it as a stationary, roll-in or floating dock.

### **CUSTOMIZE WITH EASE**

Our EasyTrack™ system makes it easy for you to add, remove, and rearrange accessories effortlessly. Our large selection of section widths and accessories let you design your dock your way.

## S6 SOLID FRAME DOCK SYSTEM COMBINES STRENGTH AND SIMPLICITY

The S6 Dock provides the perfect combination of durability and simplicity making it a top choice for a variety of marine applications. The S6 is ideal for both commercial and residential use, offering an easy, reliable solution to achieve your waterfront dreams.

### **SUPERIOR STRENGTH AND DURABILITY**

The S6 features a 6" solid aluminum frame for extreme strength in a lightweight design. Providing a solid base for your decking choice and superior stability underfoot, the S6 is ideal for busy marinas and active waterways, yet suitable for removal at the end of the season.

### **CONFIGURE IT AS A SECTIONAL, ROLL-IN, OR FLOATING DOCK**

Pair the S6 with optional foot plates, wheel kit, or dock floats to configure it as a stationary, roll-in or floating dock.

### **CUSTOMIZE WITH EASE**

Our EasyTrack™ system makes it easy for you to add, remove, and rearrange accessories effortlessly. Our huge array of section widths and accessories let you tailor your dock to your unique specifications.

## FLOATING DOCK SYSTEM

RGC Floating Dock Systems are the perfect solution to waterfronts where a stationary or roll-in dock is not an option. Whether you have fluctuating water, deep water, or an uneven lake bed, our floating docks are an ideal choice.

### **EXCEPTIONAL FRAME DURABILITY AND STABILITY**

RGC floating dock frames are designed to provide maximum stability in various water conditions, and constructed with marine-grade aluminum for extreme strength and longevity.

### **PREMIUM FLOATS**

Our high-density floats have excellent buoyancy and provide a stable base underfoot. These foam-filled floats contain 1 to 1.5 density EPS and are enclosed with durable marine-grade poly to resist UV, marine damage, and water absorption.

### **ADAPTABILITY**

Our floating docks can be customized with a vast array of section sizes and accessories for a seamless look to your waterfront. Our floating docks have the ability to be adjusted and added to over time easily and quickly for a timeless solution to your waterfront needs.

## DOCK ACCESSORIES

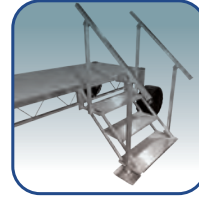

We offer a variety of dock accessories so you can personalize your dock for maximum functionality and comfort. Install and move accessories from the top of your dock with ease using the EasyTrack™ accessory brackets.

## DECKING OPTIONS

We offer multiple decking options that allow water and air to flow through, are cool to the touch and extremely low maintenance. Our decking is sun and stain-resistant, so it will stay looking new season after season. We also offer an option to order the frame only if you choose to source your own decking.
