

DURABLE

Designed for durability and ease of use, the Vertical Lift offers a solid investment that will stand the test of time. Built to withstand the harshest marine elements and the heaviest use, this lift has the durability you can count on.

VERSATILITY

The Vertical Lift can accommodate deep, shallow, and fluctuating water depths, as well as space limited locations. Highly adaptable, with various drive options to choose from, this lift is ideal for a variety of waterfront applications.

RELIABILITY

For over 75 years, RGC has manufactured quality products that are engineered to stand up to the toughest environments and years of use. Constructed with the highest quality components and attention to detail, our products are built to last.

BUILT TO LAST

VERTICAL LIFT FEATURES

- 1 ALUMINUM FRAME**
Sturdy marine grade aluminum is stronger and more robust than competitors. Provides superior strength and longevity.
- 2 PATENTED R18 WINCH**
Housed safely in marine grade aluminum that sits above the water enabling easy access for maintenance & inspection. (Shown with VLDD)
- 3 PIVOTING BUNKS**
Cradle and stabilize your boat. Easily adjustable with multiple height options.
- 4 SCREW ADJUSTABLE LEGS**
Offer a safe, above the water way to level or adjust your lift height.
- 5 FOOT PLATE**
Provides superior stability.
- 6 FULL LENGTH GUIDE-ONS**
Ultimate protection for easy entry and exit.
- 7 MOTOR STOP**
Keeps your boat properly positioned, safe and balanced for easier entry and exit.

SOLAR POWER
Upgrade to solar for clean, free, safe, low-maintenance power.

SMALL FOOTPRINT
The small footprint maximizes space limitations.

LOW MAINTENANCE
Easy to install and adjust — no special tools required.

VERSATILE
With a lifting height up to 80" and a platform depth as low as 8", this lift is ideal for a variety of water depths including deep water, shallow water and fluctuating water levels.

WINCHES & POWER DRIVE OPTIONS

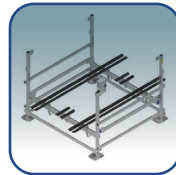

VLDD ELECTRIC POWER DRIVE
AC or DC power provides effortless operation. Add remote control option for the most convenience.

EXTREME MAX POWER DRIVE
Powers RGC's R18 Winches. Choose from AC or 12V & 24V DC. Remote control option available.

R18LT PATENTED WINCH
RGC's patented winch with an 18:1 ratio provides easy raising and lowering of your boat. (HD version to power 10,000 lb. lifts.)

VL 4FT. HANDWHEEL & FRICTION DRIVE
4' handwheel may be used with or without a friction drive. AC or DC options available.

OPTIONS/ACCESSORIES

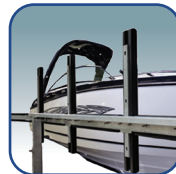

PONTOON AND TRITOON BUNK KITS
Designed specifically to cradle larger, heavier Pontoon & Tritoon boats for the advantage of fast, easy lifting. Our new Tritoon kit features center toon adjustability so lift bunks can be fine-tuned to fit your boat just right.

BOW STOP
Securely positions your boat in the cradle.

VERTICAL POST GUIDE-ONS
Guide your boat for easy entry and exit of your lift.
